

Resistell

Summer student wanted for July and August To work in Antibiotic Resistances in Lausanne

Resistell is a fast-growing start-up company based in Muttens, Switzerland. The workplace of the intern will be in Lausanne. We offer a flexible working environment with a young and enthusiastic team. The contract will be for two months, July and August. The remuneration will be negotiated based on the experience and the qualification of the student. The student will gain industry experience in a clinical environment. Our interdisciplinary team comprises microbiologists, as well as electrical, software, and biotechnology engineers. Our ideal candidate has:

- a medical or biology degree, preferably with focus on clinical microbiology
- experience with security level 2 environments
- ability to perform repetitive, yet demanding intellectual work

The student must be willing to work in a team within a start-up environment and show motivation to work goal oriented. For this internship, it will be essential to keep records to comply with clinical regulations. Please send your application including a cover letter showing your motivation and your resume to Dr. Danuta Cichocka, hr@resistell.com.
